

PROFILE - KASYFULLAH BIN MOHAMAD

Kasyfullah bin Mohamad is a seasoned Occupational Safety and Health (OSH) professional and HRD Corp accredited trainer with over 20 years of experience across the manufacturing, services, banking, food manufacturing, agriculture, and electronics sectors. He currently serves as an HSE Manager within a financial institution, where he advises management on OSH governance, statutory compliance, and the strategic implementation of workplace safety and health initiatives across the organization.

In his current role, he develops and reviews OSH policies, procedures, and Standard Operating Procedures (SOPs), conducts structured safety and health training programmes, leads the Safety and Health Committee, and oversees the implementation and maintenance of the ISO 45001 Occupational Safety and Health Management System. His work emphasizes regulatory compliance, hazard prevention, risk assessment, ergonomic improvements, and the development of a proactive workplace safety culture.

Previously, Kasyfullah held the position of Safety & Health Executive at KFC Holdings (M) Bhd (now known as QSR Brands (M) Holdings Bhd), where he managed OSH implementation across Feed Mills Plants, Integrated Poultry Farms (Hatchery, Broiler and Breeder), Food Manufacturing and Processing Plants (Feed Mill and Slaughterhouse), Life Products Manufacturing Plants, and nationwide restaurant operations. His earlier experience in engineering, quality control, and manufacturing strengthened his technical capabilities in hazard identification, workplace inspections, practical risk controls, and compliance with ISO and OHSAS requirements.

He is a registered Safety and Health Officer with the Department of Occupational Safety and Health (DOSH), a certified OSH Coordinator, Occupational Psychological First Aider, Certified Ergonomic Trained Person (Initial and Advanced Assessment) recognized by SOCSO and DOSH, an HRDC Accredited Trainer, Professional Learning Facilitator, and Master Trainer for the NIOSH Financial Institution Safety Passport (NFISP) Programme. He holds a Diploma in Electrical Equipment and Installation Technology and a Professional Certificate in Electronics Industry Engineering, supported by multiple OSH-related certifications including HIRARC facilitation, Chemical Health Risk Assessment (CHRA), Emergency Response, First Aid, and SOHELP implementation.

Recognized for his structured, practical, and compliance-driven approach, Kasyfullah has received commendation from DOSH for excellence in SOHELP implementation and is a recipient of an NCOSH award. As a trainer, he delivers practical, engaging, and results-oriented learning using adult learning principles, interactive two-way communication, real workplace scenarios, and competency-based methodologies to ensure participants can confidently apply OSH knowledge in their own work environment.
