# Protecting Planet

“ We have been protecting people in sports, leisure and at work since 1926. **'protecting people'** is our mission.

**'protecting planet'** is the natural continuation of this mission when it comes to treating people, society and nature responsibly.

With **'protecting planet'**, we have created a label that offers maximum transparency and information about our sustainability activities: from resource-saving products and innovative measures in our factories, through to social commitment and social projects. ”
